MACHINING GROUP

high precision, superior quality,
close tolerance, quick delivery

expect precision

Since 1957, our customers have trusted PHD to produce high quality, reliable products. Our attention to detail has made our name synonymous with precision and quality. As a leader in the automation component industry, PHD's reputation is second to none.

Our PHD Machining Group is focused on precision CNC Lathe and Mill machining and supported by a full compliment of grinding and finishing equipment using innovative programming and tooling technology. This dedicated facility housing 23 milling centers, ten lathes, grinding equipment, measuring equipment, fabrication, and precision finishing machines, offers the flexibility needed to fit most machined part needs.

Our highly trained technicians will work with you to provide quality, a competitive price, and timely delivery.

Our strong commitment to delivery, service, and quality have made us what we are today.

customer support

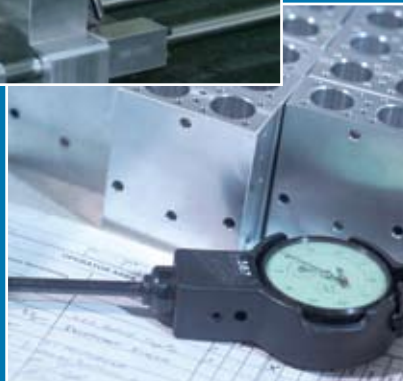

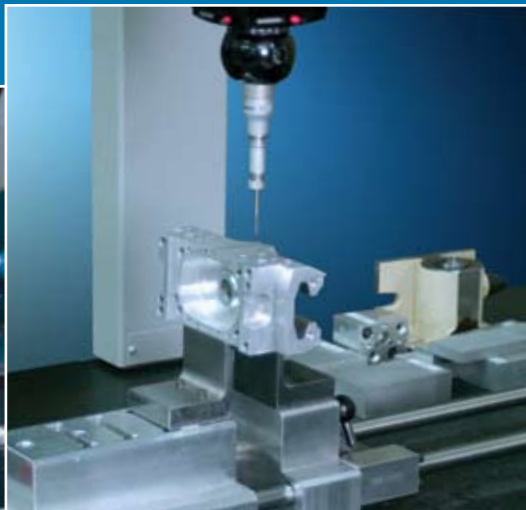

From our customer service department to our manufacturing personnel, support is paramount. Our dedicated employees are highly skilled and ready to help you. From receipt of your order through delivery, you can be certain PHD will handle your questions about pricing, parts, and delivery with professionalism and timely response.
