

Complete Motion Solutions

Pneumatic, Electric & Hydraulic Actuators

PHD offers an extensive line of **pneumatic actuators** that are known for long life and high quality. Over our 60 years of innovation, we have extended our product offerings to include **built-to-need components, price alternative components, electric actuators, specialty workholding clamps, and motion control robots**. From single actuator solutions, to multi-unit systems, PHD and Yamaha Robotics can provide complete solutions for practically any application requirement.
